ECSA Marseille PROGRAM

April 26-28, 2024 | Friche de la Belle de Mai

About ECSA

The European Common Space for Alternatives (ECSA) is a processus start by a collective of European organisations who are trying to bring together more social and citizens' movements opposing the far-right, neoliberalism and capitalist globalisation, as well as individuals, from diverse origins and backgrounds.

Our first event in Marseille, is the opportunity to give life at our processus, meet, exchange ideas, develop alternatives and strategies.

To meet this challenge, we envisage a combination between an "Open Space" - where any organisation that respects our principles can propose self-organised activities or initiative - and "Containers" to build convergence of ideas actions, and agendas.
